

Strategies for Obtaining Plant and Garden Materials
Al Kyte – Moraga Garden

Plants

1. Moraga Garden Center...1400 Moraga Rd...Moraga, CA 94556...(925) 376-1810
We are fortunate to have a nursery here in Moraga that has maintained a California Native Plant section and, in Kenny, has a very knowledgeable source on natives.
2. Berkeley Horticultural Nursery...1310 McGee Ave...Berkeley, CA 94703
This nursery requires a longer drive, but has an unusually large native plant section.
3. Annie's Annuals and Perennials...801 Chesley Ave...Richmond, CA 94801-213
This is a great place to locate difficult-to-find native wild flowers
4. Native Here Nursery (Berkeley)...(510) 549-0211
Source of local native plants...Limited hours, so call ahead
5. Yerba Buena Nursery...19500 Skyline Blvd...Woodside, CA 94062...650-851-2135
Each Fall and Spring, I take a trip to this charming nursery and find some jewels.
6. Forest Farm...990 Tetherow Rd...Williams. OR 97544...(541) 846-6963
A source of hard-to-get native trees. These folks go a great job of mailing plants.
7. California Floral Nursery.com (Santa Rosa)...(707) 528-8813
This nursery looks promising. I haven't visited it yet, but look forward to doing so.
7. Floral Native Nursery in Chico, CA...(530) 892-2511
I visit that area and usually pick up some great natives of the Sierra there.
8. Native Sons Nursery (Arroyo Grande) (805) 481-5996
Only nursery I know of that successfully grows Knobcone Pines (*P. Attenuata*)

Other Materials

1. Diamond K Supply of Lafayette...(925) 284-4477
Local source for soil, pea gravel and moss rock...delivery costs less because close
2. American Soil and Stone Products of Richmond (510) 292-3000
Great variety of soils, crushed lava, and rocks. Convenient to Acapulco Rock & Soil
3. Acapulco Rock and Soil of Richmond...(510) 526-3800
Also excellent variety of rock and gravel materials...Best price.
4. Kobold's Garden & Landscape Supply of Dublin...(925) 803-8580
My source for black and red mini-bark to use between plantings.
