

Plant Name		Requirements		Characteristics				Care		Date Planted	Notes
Common Name	Latin Name	Sun	Irrigation	Type	Bloom Season	Mature Size	CA Native	Maintenance	Propagation		
Beach aster (Seaside Daisy)	Erigeron glaucus 'Cape Sebastian'	Part shade to full sun	Low, moderate	Perennial herb	Spring, summer	.5-1' tall; 2-3' wide	H	Deadhead flowers and cut back stems to about 1" in winter after flowering		11/23	Attracts white-lined sphinx moth
Carmel creeper Ceanothus	Ceanothus thyrsiflorus var. griseus 'Carmel Creeper'	Part shade	Low	Shrub	Winter, spring	2-3' tall; 12-20' wide	Y	May need annual pruning to maintain desired shape. Maintain a lower aspect by removing upright and arching branches.	Cuttings	11/23	Variable in form, ranging from low and spreading groundcover to rounded and upright shrub. Also known as Ceanothus griseus.
Catalina Cherry	Prunus ilicifolia ssp. lyonii	Part shade to full sun	Very low	Tree, Shrub	Winter, spring	25-40' tall; 20 ft wide	Y	Gophers are attracted to roots; prune to shape while young	Seeds or cuttings	11/23	Evergreen; will hybridize easily with other Prunus species in the garden.
Chaparral currant	Ribes malvaceum	Part shade to full sun	Very low	Shrub	Winter, spring	5-8' tall; 5' wide	Y	Prune during dry season or after fruiting. Avoid cutting into old wood		11/23	
Claremont pink-flowering currant	Ribes sanguineum var. glutinosum 'Claremont'	Part shade to shade	Low	Shrub	Spring	6-8' tall; 4-6' wide	Y			11/23	Attracts white-lined sphinx moth
Coffeeberry	Rhamnus/Frangula californica	Part shade to full sun	Low/very low	Shrub	Spring, summer	6-15' tall; 5-15' wide	Y	Takes pruning well	Seeds or cuttings; fresh seeds need to treatment	11/23	Berries attract birds
Coral bells	Heuchera 'Santa Ana Cardinal'	Part shade to shade	Low	Herbaceous perennial	Spring, summer	.5-1' tall; 1-2' wide	H	Divide clumps in spring every 3-4 years; remove stems of faded flowers to encourage additional bloom		11/23	
Coral bells	Heuchera pulchella 'Raspberry Regal'	Part sun to light shade	Medium	Herbaceous perennial	June to July	2.5' x 1.5'	H		Divide clumps every 3-4 years in the spring	11/23	<a href="https://www.missouribotanicalgarden.org/PlantFinder/PlantFinderDetails.aspx?taxonid=248518&amp;isprofile=0&amp;">https://www.missouribotanicalgarden.org/PlantFinder/PlantFinderDetails.aspx?taxonid=248518&amp;isprofile=0&amp;</a>
Coral bells	Heuchera sanguinea 'Firefly'	Part shade to full sun	Medium	Herbaceous perennial	June-July	1-1.5' tall; 1-1.5' wide	H	Divide clumps in spring every 3-4 years; remove stems of faded flowers to encourage additional bloom		11/23	<a href="https://www.missouribotanicalgarden.org/PlantFinder/PlantFinderDetails.aspx?taxonid=254860">https://www.missouribotanicalgarden.org/PlantFinder/PlantFinderDetails.aspx?taxonid=254860</a>
Coral bells	Heuchera sanguinea 'Splendens'	Part shade to full sun	Medium	Herbaceous perennial	June-July	1-1.5' tall; 1-1.5' wide	H	Divide clumps in spring every 3-4 years; remove stems of faded flowers to encourage additional bloom		11/23	Scorch and general foliage decline often occur if soils are allowed to dry out; <a href="https://www.missouribotanicalgarden.org/PlantFinder/PlantFinderDetails.aspx?taxonid=262347&amp;isprofile=0&amp;">https://www.missouribotanicalgarden.org/PlantFinder/PlantFinderDetails.aspx?taxonid=262347&amp;isprofile=0&amp;</a>
Coral bells	Heuchera maxima										
Eve Case Coffeeberry	Rhamnus/Frangula californica 'Eve Case'	Part shade to full shade	Low	Shrub	Spring	3-6' tall; 4-6' wide	H	Takes pruning well		11/23	
False Goldenaster	Heterotheca sessiliflora 'San Bruno Mountain'	Part shade to full sun	Very low	Perennial herb	All year	2-4' tall	Y			11/23	
Hearts Desire Mountain Lilac	Ceanothus gloriosus 'Hearts Desire'	Part shade to full sun	Low, moderate	Shrub	Spring	.5-1' tall; 3-5' wide	Y	Prune to shape in late summer to early fall to minimize infection of the wound		11/23	Needs partial shade and a little extra water inland
Leafy Reed Grass	Calamagrostis foliosa	Part shade to full sun	Low	Grass		1-2' tall; 2' wide	Y	Remove thatch by running a steel rake vigorously through the tufts. Plants will become senescent if not divided after 3-7 years. Does not respond well to shearing.		11/23	Attracts Arctic Skipper butterfly
Montara Sagebrush	Artemisia californica 'Montara'	Part shade to full sun	Low, moderate	Shrub	Summer, fall	1-2' tall; 3-6' wide	H	Hard prune in late fall/early winter after bloom but before new growth appears.		11/23	Summer deciduous; thrives in hot inland conditions with almost no supplemental water
Pacific Mist Manzanita	Arctostaphylos 'Pacific Mist'	Part shade to full sun	Low, moderate	Shrub	All year	1-2' tall; 5-8' wide	H	Needs pruning 2x per year to keep in check.		11/23	Berries attract birds
Red Bush Monkeyflower	Mimulus puniceus (Diplacus)	Part shade to full sun	Very low	Shrub	Winter, spring, summer	1-2' tall; 2-3' wide	Y	Light pruning during deciduous season (summer). Stick to twigs and shoots, but avoid cutting into woody tissue.	Cuttings	11/23	Direct watering in late summer or early fall will often kill this plant. Let it go dormant in hottest months of the year, and then watch it come back with the rains. Healthy plants readily reseed
Toyon	Heteromeles arbutifolia	Part shade to full sun	Extremely low	Shrub	Summer	6-30' tall; 10-15' wide	Y	Susceptible to fireblight. If it gets leggy cut to the ground and it will regrow from the base.	Fresh seeds need no treatment	11/23	
Valley Violet California Lilac	Ceanothus maritimus 'Valley Violet'	Part shade to full sun	Low	Shrub	Spring	1.5-2' tall; 3-4' wide	Y	Tip prune if a compact shape is wanted		11/23	
Western Redbud	Cercis occidentalis 'Pink'	Part shade to full sun	Low	Shrub	Winter, spring	10-20' tall; 10-15' wide	Y	Responds well to pruning, including occasional hard pruning	Can propagate from seed: hot water and 2 mos stratification	11/23	
Western Sword Fern	Polystichum munitum	Part shade to full shade	Low	Fern		1.6-5.9'tall; 2-3' wide	Y	Remove dead fronds to improve appearance		11/23	Summer semi-deciduous; <a href="https://www.youtube.com/watch?v=6L36cYCCP9I">https://www.youtube.com/watch?v=6L36cYCCP9I</a> ; susceptible to thrips, causing a silvery tan cast on the leaves; Early application of insecticidal soap and/or horticultural oil can help, or coppice plant. It will return the following spring.
White icicle pink-flowering currant	Ribes sanguineum 'White icicle'	Part shade to shade	Low	Shrub	Spring	6-8' tall; 4-6' wide	Y			11/23	Attracts white-lined sphinx moth
Yerba Buena	Satureja douglasii	Full shade to part shade	Low	Perennial herb	Spring, summer	3-6-7.2" tall; 3' wide	Y	Encourage branching by light pruning	Seeds	11/23	Make sure it doesn't get covered up by mulch or other plants
